Published regression P/E (EUROPE, R2 0.201)	27.96x	207.15	-12.8%
Published regression P/BV (EUROPE, R2 0.423, CHOSEN)	3.39x	145.78	-38.6%
Published regression EV/EBITDA (EUROPE, R2 0.262)	22.48x	288.95	+21.7%

Chosen model: published P/BV regression (highest published R2 0.423) at EUR 145.78. Inputs use analyst consensus growth (no substitution); the market-wide equation cannot see Schneider's ROE premium (actual P/BV 5.53x vs predicted 3.39x).

Peer set: Legrand, Prysmian, Siemens Energy (T1); Atlas Copco, Metso, Halma, Alfa Laval, Wartsila (T2); Sandvik, Epiroc (T3, at cap — size band excluded most mid-cap electrical names). Limitations: peer tiers are judgement; index/ISIN checks pending; published R2 is low; workbook not recalculated; human review pending.
